The Board approves and monitors expenditure, ensure the integrity of internal controls and monitors and approves financial and other reporting.

In complying with Recommendation 1.1 of the Corporate Governance Council, the Board has adopted a Board Charter which clarifies the respective roles and responsibilities of the Board and management, those matters expressly reserved to the Board, and those delegated to management.

As part of the process for the identification of suitable future candidates for appointment as a director of the Company, the Board takes into consideration the person’s character, experience, education, criminal record and bankruptcy history.

Board Processes

An agenda for Board meetings has been determined to ensure certain standing information is addressed and other items which are relevant to reporting deadlines and or regular review are scheduled when appropriate. The agenda is regularly reviewed by the Executive Chairman and the Company Secretary.

Executive Chairman and Company Secretary

The Board requires the Executive Chairman and the Company Secretary to provide a written statement that the Consolidated Financial Statements of Alloy present a true and fair view, in all material aspects, of the financial position and operational results. In addition, confirmation is provided that all relevant accounting standards have been appropriately applied.

The Company Secretary is accountable directly to the Board, through the Chair, on all matters to do with the proper functioning of the Board

Evaluation of Senior Executive Performance

The Company has not complied with Recommendation 1.7 of the Corporate Governance Council as the Board have not undertaken a formal review of senior executive performance for the year ended 30 June 2019.

Due to the early stage of development of the Company, it is difficult for quantitative measures of performance to be established. As the Company progresses its current projects, the Board intends to establish appropriate evaluation procedures.

Diversity Policy

The Board has implemented a Diversity Policy in line with Corporate Governance guidelines. The Group believes that the promotion of diversity on its Board, in senior management and within the organisation generally is good practice and adds to the strength of the Group.

The policy affirms existing employment arrangements which seek to attract and retain people by promoting an environment where employees are treated with fairness and respect and have equal access to opportunities as they arise. Diversity within the workforce includes such factors as religion, race, ethnicity, language, gender, disability and age.

The Board has adopted a diversity policy that details the purpose of the policy and the employee selection and appointment guidelines, consistent with the recommendations of the Corporate Governance Council. The Board believes that the adoption of an efficient diversity policy has the effect of broadening the employee recruitment pool, supporting employee retention, including different perspectives and is socially and economically responsible governance practice.

The Company employs new employees and promotes current employees on the basis of performance, ability and attitude. The Board is continually reviewing its practices with a focus on ensuring that the selection process at all levels within the organisation is formal and transparent and that the workplace environment is open, fair and tolerant.

The Board will consider the future implementation of gender-based diversity measurable objectives when more appropriate to the size and nature of the Company's operations.

Evaluation of Board Performance

The Company does not have a formal process for the evaluation of the performance of the Board and as such does not comply with Recommendation 1.6 of the Corporate Governance Council. The Board has assessed the independence of its non-executive directors according to the definition contained within the ASX Corporate Governance Guidelines and has concluded that the current non-executive Director, Mr Gary Powell is the only director that meets the recommended independence criteria. As the Board does not have a majority of independent directors as set out in the best practice recommendations, the Company does not comply with Recommendation 2.4 of the Corporate Governance Council. However, the Board considers that both its structure and composition are appropriate given the size of the Company and that the interests of the Company and its shareholders are well met.

The Board does not have a separate Nomination Committee comprising of a majority of independent Directors and as such does not comply with Recommendation 2.1 of the Corporate Governance Council. Audit Committee

The Company does not have a separately constituted audit committee with a composition as suggested by Recommendations 4.1 of the Corporate Governance Council. The full Board is able to meet objectives of the best practice recommendations and discharge its duties in this area. The relevant experience of Board members is detailed in the Directors' section of the Directors' Report.

External audit recommendations, internal control matters and any other matters arising from the half-year audit review and the annual statutory audit are discussed directly between the Board and the audit engagement partner.

Corporate Governance Council Principle 5

Make Timely and Balanced disclosure

Timely and balanced disclosure

The Board is committed to the promotion of investor confidence by providing full and timely information to all security holders and market participants about the Company's activities and to comply with the continuous disclosure requirements contained in the Corporations Act 2001 and the Australian Securities Exchange Listing Rules. The Company has adopted a Continuous Disclosure Policy designed to ensure compliance with the ASX Listing Rule Requirements in accordance with Recommendation 5.1 of the Corporate Governance Council.

Continuous disclosure is discussed at all regular Board meetings and on an ongoing basis the Board ensures that all activities are reviewed with a view to the necessity for disclosure to security holders.

In accordance with ASX Listing Rules the Company Secretary has been appointed as the Company's disclosure officer.

Corporate Governance Council Principle 6

Respect the Rights of Security Holders

Communications

The Board supports practices that provide effective and clear communications with security holders and allow security holder participation at general meetings. A formal Shareholder Communications Policy has been adopted and therefore the Company complies with Recommendation 6.1 of the Corporate Governance Council.

In addition to electronic communication via the ASX web site, the Company publishes all Significant announcements together with all quarterly reports. These documents are available on the company's website.

Corporate Governance Council Principle 7

Recognise and Manage Risk

Oversight of the risk management system

The Board has not established a formal Audit and Risk Management Committee and therefore does not comply with Recommendation 7.1 of the Corporate Governance Council. However, the Board delegates day-to-day management of risk to the Executive Chairman and Company Secretary who are responsible for implementing and maintaining a framework of control and accountability systems to enable risk to be assessed and managed.

Risk management and internal control systems

The Executive Chairman and Company Secretary, with the assistance of senior executives as required, have responsibility for identifying, assessing, treating and monitoring risks and reporting to the Board on risk management.

In order to implement risk management strategies, it was considered important that the Company establish an internal control regime in order to:

- Assist the Company to achieve its strategic objectives;
- Safeguard the assets and interests of the Company and its stakeholders; and
- Ensure the accuracy and integrity of external reporting.

Key identified risks to the business are monitored on an ongoing basis as follows:

- Business risk management

The Company manages its activities within budgets and operational and strategic plans.

- Internal controls

The Board has implemented internal control processes typical for the Company's size and stage of development. It requires the senior executives to ensure the proper functioning of internal controls and in addition it obtains advice from the external auditors as considered necessary.

- Financial reporting

Directors approve an annual budget for the Company and regularly review performance against budget at Board Meetings.

- Operations review

Members of the Board from time to time visit the Company's exploration project areas, reviewing development activities, geological practices, environmental and safety aspects of operations.

The Company's risk management strategy is evolving and will be an ongoing process and it is recognised that the level and extent of the strategy will develop with the growth and change in the Company's activities.

Economic, Environmental and Social Sustainability Risks

The Company is focused on the discovery and exploitation of mineral deposits and operates in diverse physical environments in Western and South Australia. As a result, there is some potential for material exposure to economic, environmental and social sustainability risks.

The Company is very aware of the potential for risk in this area and is committed to ensuring that sound environmental management and safety practices are carried out in its exploration activities.

Alloy's underlying goals relating to environmental sustainability are to minimise any adverse impacts upon the environment resulting from the Company's activities.

The Company's activities are conducted in a manner that minimises its environmental "footprint" as much as possible, and are conducted strictly in accordance with all necessary permits and approvals from regulators.

Risk Reporting

As the Board has responsibility for the monitoring of risk management it has not required a formal report regarding the material risks and whether those risks are managed effectively therefore not complying with Recommendation 7.2 of the Corporate Governance Council. The Board believes that the Company is currently effectively communicating its significant and material risks to the Board and its affairs are not of sufficient complexity to justify the implementation of a more formal system for identifying, assessing monitoring and managing risk in the Company.

Alloy Resources Limited and its Controlled Entities
ABN 20 109 361 195

Internal audit

The Company does not have an internal audit function. The Board does not consider that the Company's operations are of a size or complexity to require a dedicated internal audit function and that processes and inherent risks are sufficiently transparent as to be identified by board members.

Corporate Governance Council Principle 8 **Remunerate Fairly and Responsibly**

The Company's remuneration policy is to ensure that the remuneration package properly reflects the person's duties and responsibilities and that remuneration is competitive in attracting, retaining and motivating people of the highest quality.

Disclosure of the details of the nature and amount of each element of directors, including non-executive directors, and executive's remuneration is included in the Consolidated Financial Statements.

No bonuses and/or incentive payments have been paid and are not anticipated.

Remuneration Committee

The Board does not have a separate Remuneration Committee and as such does not comply with Recommendation 8.1 of the Corporate Governance Council. Due to the early stage of development and small size of the Company, a separate remuneration committee was not considered to add any efficiency to the process of determining the levels of remuneration for the Directors and key executives.

The full Board determines all compensation arrangements for Directors. It is also responsible for setting performance criteria, performance monitors, share option schemes, incentive performance schemes, superannuation entitlements, retirement and termination entitlements and professional indemnity and liability insurance cover.

The Board ensures that all matters of remuneration will continue to be in accordance with Corporations Act requirements, by ensuring that none of the Directors participates in any deliberations regarding their own remuneration or related issues.

Distinguish Between Executive and Non-Executive Remuneration

The Company does distinguish between the remuneration policies of its Executive and Non-Executive Directors in accordance with Recommendation 8.2 of the Corporate Governance Council.

Executive Directors receive salary packages which may include performance-based components, designed to reward and motivate, including the granting of share options, subject to shareholder approval.

Non-Executive Directors receive fees agreed on an annual basis by the Board, within total Non-Executive remuneration limits voted upon by shareholders at Annual General Meetings.

Equity based remuneration

The company's security trading policy does not specifically preclude participants from entering into transactions which limit the economic risk of participating in equity-based schemes and as such the Company is not compliant with Recommendation 8.3 of the Corporate Governance Council. It is noted that the Corporations Act prohibits key management personnel of an ASX listed company of entering into arrangements that have the effect of limiting their exposure to risk relating to an element of their remuneration that is unvested
